\$\$ Savings from T8 bulbs

T8 florescent bulbs use 40% less energy than T12 florescent bulbs.

T8 bulbs use a more efficient ballast (the metal pieces that hold the bulb in place)

Better light from T8 bulbs

T8 and T12 bulbs emit about the same amount of light, but the color of light emitted from the T8 bulbs is closer to natural light.

T8 bulbs don't flicker like T12 bulbs.

All of the florescent lights in City Hall have been switched to T8 bulbs.

Motion detectors in the bathrooms turn off the lights when the rooms are not in use.
